## PROFESSIONAL EXPERIENCE

---

## **Software Engineer (Next.js)**

eSanad Insurance | Abu Dhabi, UAE | January 2025 - Present

- Developed and maintained high-performance web applications using Next.js and React.js
- Implemented CSR, SSR, and SSG for optimized rendering and performance
- Designed and optimized database queries for efficient data retrieval and storage
- Developed real-time chat system using WebSockets for instant customer communication
- Integrated Facebook Developer API and WhatsApp Business API for authentication and automated support
- Managed state efficiently using Redux and Context API
- Worked with CI/CD pipelines using GitHub Actions, Azure, and AWS for automated deployments
- Configured and managed Microsoft 365 Admin settings including Global Email Signatures
- Enhanced data security through authentication, authorization, and encryption techniques

## **Web Developer (React JS)**

NX3 Digital | Karachi, Pakistan | January 2024 - December 2024

- Built and maintained responsive web applications with focus on front-end development
- Collaborated with teams using Jira, Slack, and ClickUp to manage tasks and track progress
- Contributed to front-end optimization and deployment processes to improve code efficiency
- Incorporated client feedback into UI/UX improvements to enhance user experience
- Regularly communicated project updates and timelines with clients to ensure alignment

## **Web Developer (Freelance)**

Self-Employed | May 2023 - December 2023

- Managed all aspects of client websites including functionality, content updates, and user experience
- Developed and implemented content strategies to drive engagement and increase website traffic
- Monitored website and social media performance using analytics tools, providing regular reports and insights
- Analyzed data trends to inform future strategies, optimizing content based on audience behavior

## **Web Design and Development**

Multiple Clients (Sanmarco.ae, Innov Stars, Alayamdecor.ae) | Dubai, UAE | July 2022 - December 2022

- Designed and built client websites and systems, decreasing load times by 30% through front-end optimizations
- Assisted in SEO optimization efforts resulting in higher search engine rankings and increased organic traffic
- Created and managed content for social media platforms to increase engagement and brand visibility
- Successfully managed social media platforms for real estate firms including Facebook, Twitter, and LinkedIn

## **Business Development Executive**
